

CREATIVE ARTS WORKSHOP

Gallery Windows Dimensions

Creative Arts Workshop's signature windows face due East, and overlook Audubon Street at an angle. They are fully visible from the sidewalk and the street. Best viewing of the windows is walking from Orange to Whitney Avenues, sitting/standing at Leeney Plaza opposite CAW's building, or from the sidewalk.

There are five identical window bays, each with three vertically-stacked panes.

Each bay is **82" wide** and just over **19 ½' tall**. The illustration below is not drawn to scale, but lists the accurate dimensions.
